EDUCATION

BACHELOR OF SOFTWARE ENGINEERING
Virtual University | Pakistan | 2020-2024

TECHNICAL SKILLS

Front-end:

- React.js
- Next.js
- TypeScript, JavaScript (ES6+)
- HTML5, CSS3
- SASS, Tailwind CSS
- Redux Toolkit
- Responsive Design
- Cross-Browser Compatibility
- REST API Integration
- Jest, Unit & Component Testing

AI & LLM:

- LLM API Integration (OpenAI, Gemini, Claude, DeepSeek etc)
- Prompt Engineering
- AI-Powered Application Development
- Structured Output & JSON Generation
- AI Workflow Automation

Mobile:

- React Native

Backend:

- Node.js
- Express.js
- REST APIs
- GraphQL
- JWT Authentication
- MongoDB, PostgreSQL, MySQL

Tools & Other

- Git, GitHub & GitHub Actions
- Docker
- Vercel, Netlify, Deta Space, Hostinger, Digital Ocean, Bluehost etc
- AWS Deployment
- Figma, Photoshop, Illustrator

MOHAMMAD AWAIS

Frontend Developer | React.js, Next.js | AI & LLM Integration

Frontend Developer with 3+ years of production experience building high-performance web applications in React.js, Next.js, and TypeScript. Shipped 20+ client and freelance projects, including a self-built AI-powered SaaS product (VeraMatch AI) using LLM APIs for resume optimization and ATS analysis. Strong in REST API integration, performance optimization, and clean, scalable frontend architecture. Comfortable owning features end-to-end, from UI to deployment.

PROFESSIONAL EXPERIENCE

- JAN 2025 – FEB 2026
Piraeus, Greece

FRONT-END DEVELOPER (NEXT.JS)

Greeka.com | Remote | Full Time

 - Built a ferry booking system (Next.js SSR, Tailwind), improving load speed by 30%.
 - Improved system efficiency by 20% through the integration of 6 REST APIs for real-time data.
 - Handled route management & SEO setup, increasing organic traffic by 15%.
 - Used Cursor AI to accelerate implementation and debugging across React/Next.js features, maintaining code quality while increasing delivery speed.
- APRIL 2022 – JAN 2025
Georgia, United States

FULL STACK DEVELOPER

Spear Agency | Project Based | Remote

 - Delivered more than 15 client websites (blogs, e-commerce) using MERN stack and WordPress.
 - Built a custom React admin panel, cutting CMS update time by 40%.
 - Automated deployment via GitHub Actions, reducing release cycles to 4 hours.
- AUG 2023 – SEP 2024
Lahore, Pakistan

FULL STACK DEVELOPER

Innovatives Tech | Remote

 - Created a salary calculator app (Next.js) with 99% tax calculation accuracy (4.8/5 rating from 369 users).
 - Launched a React/Node.js blog using SSR and CDN, improving load time by 50%.
 - Reduced AWS costs by 25% by optimizing serverless functions and queries.
- Jun 2022 – Present
Worldwide

FREELANCE FULL STACK DEVELOPER

Global & Local Clients

 - Built 20+ responsive web applications using React.js, Next.js, TypeScript, Tailwind CSS, and WordPress/WooCommerce.
 - Integrated AI and LLM APIs into production applications, delivering intelligent chatbot experiences and AI-powered features.
 - Developed high-performance e-commerce platforms with custom checkout flows, payment integrations, and reusable UI components.
 - Refactored legacy jQuery projects into modern React.js applications, improving performance, maintainability, and user experience.
 - Managed deployment pipelines and production hosting on Vercel, AWS, Hostinger, and Deta Space.

Urdu | Native

ACHIEVEMENTS

- Delivered 20+ production-ready web applications for international clients.
- Built AI-powered SaaS applications with LLM integration and prompt engineering.
- Maintained a 4.9/5 client satisfaction rating across 20+ completed projects.
- Improved application performance by up to 50% through frontend optimization.
- Developed scalable React.js and Next.js solutions for startups and businesses.

PROJECT HIGHLIGHTS

NexaCart — Full Stack E-Commerce Platform (Next.js & Node.js)

Developed a production-ready full-stack e-commerce platform with secure authentication, product management, and modern shopping experience.

- Secure authentication with JWT & role-based access
- Product catalog, cart, checkout & admin dashboard
- REST API integration with MongoDB backend
- Responsive UI with optimized performance
- Built using Next.js, Node.js, Express.js & MongoDB

Tech Stack:

- Next.js • TypeScript • SASS • Node.js • Express.js • MongoDB

<https://github.com/Mohammad-Awais456/ecommerce-store-nextjs-node>

VeraMatch AI — AI Resume Rewriter & ATS Analyzer (LLM Powered)

Designed and developed an AI-powered resume optimization SaaS that leverages Large Language Models to analyze ATS compatibility, rewrite resumes, generate interview questions, and export optimized resumes in PDF and Markdown.

- AI-powered ATS score & job match analysis
- Resume optimization based on any job description
- LLM-generated interview questions
- Country-based salary estimation
- AI-powered resume rewriting with ATS optimization and **PDF/Markdown export**
- Built using Next.js, TypeScript, Tailwind CSS & Google Gemini API

Tech Stack:

- Next.js • TypeScript • Tailwind • Gemini API

<https://veramatch-ai.vercel.app>

Movie Galaxy — React Native Movie Discovery App

Built a cross-platform mobile application for discovering movies with a clean UI and real-time entertainment data.

- Search movies with detailed information
- Trending movies & personalized bookmarks
- Real-time TMDB API integration
- Optimized mobile UI & smooth navigation
- Built using React Native, TypeScript & REST APIs

Tech Stack:

- React Native • TypeScript • Expo • TMDB API
